### **DETAILS:**

The Lane County Sheriff's Office has recently made some enhancements to the Sheriff's Activity Log on our Web Site. These daily activity logs represent calls for service to the Sheriff's Office Communication Center. Staff working in the Communications Center prioritize the calls and dispatch an appropriate response.

Enhancements to the existing Activity Log include narrative details for some calls. Call details of a confidential nature will not appear on these logs.

The Sheriff's Office worked closely with Lane County Information Systems staff on expanding the existing program and creating the enhancements. The Sheriff's Office is committed to sharing public information with the media as well as the general public.
