

Sponsored by the Federal Emergency Management Agency (FEMA), the Community Emergency Response Team (CERT) is a program that promotes a partnership between emergency services personnel and the community. CERT members are trained by the local emergency personnel in basic emergency response skills.

In a disaster situation the local professional emergency responders may count on trained CERT members to assist with the basic response techniques that they have learned. These techniques can save lives in a disaster situation as well as in day to day emergencies.

**For information on how you can become a CERT member contact:**
